The Northern Territory Government, along with our partners and other stakeholders, continues to progress the goals and objectives of the Northern Economic Development Framework (EDF). This is the second progress report on the EDF. It provides the current status of each project identifying those that have been completed, those that are now integrated as established practice, and those that are in progress. It also identifies projects that have continued to transform in our dynamic operating environment, and showcases our latest initiatives to increase Territorian confidence, leverage private sector investment and improve the Territory’s economic future.

The Hon Michael Gunner MLA
Chief Minister of the Northern Territory

CHIEF MINISTER’S FOREWORD

Highlights include:
- A continued strong Developing Darwin strategy, which has been identified and is being managed by Priority Development Zones, including the Katherine Logistics and Agribusiness Hubs.
- Consultation has commenced on the 2020 NT Government facilitated investment project pipeline.
- The Department of Corporate and Information Services has finalized the 2019 Digital Territory Action Plan.
- Continued to deliver a range of initiatives to increase productivity and profitability of primary industry sectors, including proof of concept trials for new crops, including cotton.
- The Department of Education continues to work with identified community schools, students and families to effectively address the need for a additional secondary education opportunities, through the Transition Support Unit (TSU). As of 31 July, 2019 the TSU supported 413 students currently enrolled in boarding facilities or schools within the Northern Territory.
- The Coast and Marine Management Strategy and implementation plan was released in September 2019.
- The 2018-2019 Northern Australia Package Agreement has been signed.
- Established the Strategic Agricultural Water Reserve Policy framework and managed in accordance with supporting legislation.
- New environmental protection legislation to come into effect in mid-2020.
- The Coastal and Marine Management Strategy and implementation plan was released in September 2019.
- Established the Strategic-Aboriginal Water Reserve Policy framework and managed in accordance with supporting legislation.
- 25 AB increased frequency to Darwin from Singapore to improve connectivity and accessibility.
- The EDF is dynamic, and some projects and actions have been incorporated or developed into broader initiatives.
- Developed an enhanced Designated Area Migration Agreement (DAMA) Mark II.
- In partnership with Regional Economic Development and Culture, the Northern Territory launched the Northern Territory’s investment program.
- Significant progress continues to be made on a number of EDF initiatives that are on track for delivery.
- The NT Government announced a $240 million partnership with the Rugby League to build the largest sports complex in Northern Australia.
- The Department of Tourism, Sport and Culture facilitated the release of the Tourism Industry 2030 Strategy released in October 2018.
- The Northern Territory Government, in partnership with identified partners, released the Northern Territory’s Regional Economic Development Roadmap in July 2018.
- There has been continued progress on delivering EDF projects along with our partners and other stakeholders, including:
- The Department of the Environment, Northern Australia Program continues, with headworks and road designs nearing completion and commercial and native title negotiations progressing.
- In January 2019, the Prime Minister announced the Commonwealth commitment of $356 million for Kakadu and Table, with the NT Government committing a further $125.5 million over four years to support the future of Kakadu.

Completed Projects

The Northern Territory Government, along with our partners and other stakeholders, continues to progress the goals and objectives of the Northern Economic Development Framework (EDF). This is the second progress report on the EDF. It provides the current status of each project identifying those that have been completed, those that are now integrated as established practice, and those that are in progress. It also identifies projects that have continued to transform in our dynamic operating environment, and showcases our latest initiatives to increase Territorian confidence, leverage private sector investment and improve the Territory’s economic future.

It also identifies projects that have continued to transform in our dynamic operating environment, and showcases our latest initiatives to increase investor confidence, leverage private sector investment and improve the Territory’s economic future.

The Hon Michael Gunner MLA
Chief Minister of the Northern Territory

In-Progress Projects

Significant progress continues to be made on a number of EDF initiatives that are on track for delivery.

- Progressing a mix of whole of government regulatory reforms to simplify the process of transacting with Government and providing investor certainty. Progress is being made in areas including agriculture, transport, planning, licensing and taxation.
- The Department of Infrastructure, Planning and Logistics finalising the draft Regional Development Plan. This will be the Territory’s implementation plan for the National Freight and Supply Chain Strategy/ National Action Plan.
- Consultation for the Creative Industries Development Strategy has commenced.
- The development of a detailed business case for the Adelaide-Boorambreen-Darwin hydrogen and renewable energy supply route.
- The Department of Environment and Natural Resources’ project to develop a new National Water Reserve Policy Framework.
- The Katherine Development Plan.
- The Department of the Environment’s project to develop Northern Australia’s water strategy.
- The Thai-Lao Water Commission Agreement.
- The Northern and eastern Australia chain strategy.
- Development of the Katherine Logistics and Agriculture Hub continues, with headlines for the project progressing.

In January 2019, the Prime Minister announced the Commonwealth contribution of $516 million for Kakadu and Bathurst Islands, with the NT Government committing a further $135.5 million over four years to support the future of Jabiru.

New Initiatives

The EDF is dynamic, and some projects and actions have been incorporated or developed into broader initiatives. Examples include:

- Progressing the Mining Sector and Supply Centre in Tennant Creek through a signed Barton Regional Deal – the first regional deal in Australia and over $78.4 million committed to a framework. The Territory and Commonwealth are progressing discussions with the Northern Territory Government, the NT Government and other funding partners to stimulate economic growth, including minerals, and improving social outcomes.
- Under the Local Decision Making (LDM) Policy, there were three additional agreements signed since October 2018, and a further three statements of commitment for government and community to explore LDM opportunities.
- Under the Local Decision Making (LDM) Policy, there were three additional agreements signed since October 2018, and a further three statements of commitment for government and community to explore LDM opportunities.
The Northern Territory Government, along with our partners and other stakeholders, continue to progress the actions and objectives of the Northern Economic Development Framework (EDF). This is the second progress report on the EDF. It provides the current status of each project identifying those that have been completed, those that are now integrated as established projects, and those that are in progress. It also identifies projects that have continued to transform in our dynamic operating environment, and showcases our latest initiatives to improve Territorian fairness, leverage private sector investment and improve the Territory’s economic future.

The Hon Michael GUNNER MLA
Chief Minister of the Northern Territory

Established Practice

A number of EDF projects and actions have been integrated with government’s existing practice and are either currently being delivered, or have been delivered, and will continue to generate benefits for the Territory’s economic future.

New Initiatives

The EDF is dynamic, and some projects and actions have been incorporated or developed into broader initiatives.

In-Progress Projects

Significant progress continues to be made on a number of EDF initiatives that are on track for delivery in 2019-20.

- Progressing a mix of whole of government regulatory reforms to simplify the process of transacting with Government and providing investor certainty. Programs are being made in areas including agriculture, transport, planning, licensing and taxation.

- The development of Infrastructure, Planning and Logistics fielding the draft Territory’s Local Logistics Market Plan. This will be the Territory’s implementation plan for the National Freight and Supply Chain Strategy/NT Action Plan.

- Development of the Katherine Logistics and Agriculture Hub continues, with headworks and road designs nearing completion and commercial and national level negotiations progressing.

- In January 2019, the Prime Minister announced the Commonwealth commitment of $156 million to Kakadu andères, with the NT Government committing a further $155 million over four years to support the future of Jabiru.

- Significant progress continues to be made on a number of EDF initiatives that are on track for delivery in 2019-20.

- Improving a mix of whole of government regulatory reforms to simplify the process of transacting with Government and providing investor certainty. Programs are being made in areas including agriculture, transport, planning, licensing and taxation.

- The development of Infrastructure, Planning and Logistics fielding the draft Territory’s Local Logistics Market Plan. This will be the Territory’s implementation plan for the National Freight and Supply Chain Strategy/NT Action Plan.

- Consultation for the Creative Industries Development Strategy Human Services; Workforce Development; Work Management; Energy Export; and Mining. These industry strategies are on track for completion in 2019-20.

- Development of the Katherine Logistics and Agriculture Hub continues, with headworks and road designs nearing completion and commercial and national level negotiations progressing.

- In January 2019, the Prime Minister announced the Commonwealth commitment of $156 million to Kakadu and Jabiru, with the NT Government committing a further $155 million over four years to support the future of Jabiru.
The Territory Government has identified an economic plan comprising five key pillars, which directly relate to, and incorporate actions arising under, the Economic Development Framework. The Territory Government will continue to deliver on these five pillars, by focusing on the cohesive suite of strategies, initiatives and projects sitting under each pillar.

The Territory Government is securing the investments needed to create the jobs of today and to guarantee the permanent, ongoing jobs of tomorrow. We have been doing this by focussing on the strengths of the Territory – the competitive advantage of its location, the culture, the history and the people.

**PILLARS**
